OBJECTIVE

Software Engineer with 3+ years building scalable web applications across the **MERN stack**. Expertise in React.js and Next.js for frontend, plus Node.js, Express.js on the backend. Adept at API integration, state management, and Agile delivery. Seeking a **Frontend Developer or MERN Developer** role.

SKILLS

Technical Skills	ReactJs, NextJs, JavaScript, NodeJs, ExpressJs, MySQL, MongoDB, Drizzle ORM, AWS EC2, Redux Toolkit, React Query, Axios, Zustand, Tailwind CSS, SCSS, HTML5, CSS3, Responsive UI
Soft Skills	Problem Solving, Communication, Team Collaboration, Time Management
Languages	English, Hindi, Gujarati

EDUCATION

Computer Science and Engineering, Parul University	2019 - 2023
GPA: 8.2	

EXPERIENCE

Senior Frontend Developer	Dec 2024 – Present
NetAI Inc.	Ahmedabad

- Built a network management app with interactive device topology visualizations using **Next.js**, **D3.js**, and **ForeGraph**, improving data clarity for network ops teams.
- Engineered an AI-powered chatbot with real-time **streaming responses**, consuming server-sent chunk-by-chunk data streams to deliver a smooth, low-latency conversational UX.
- Integrated RESTful APIs via **Axios** and **React Query**; architected scalable state management with **Zustand** and built responsive UI using **Tailwind CSS**.

Software Engineer	Aug 2024 – Dec 2024
MKS Digitech	Ahmedabad

- Developed dynamic **React.js** interfaces with **Redux Toolkit** for centralized state management
- Designed and implemented RESTful CRUD APIs using **Node.js**, **Express.js**, and **Sequelize ORM**, streamlining data operations between frontend and database layers.
- Integrated third-party APIs using **Axios** and **Redux Toolkit**, improving application data flow.

Software Engineer	Jan 2023 – Aug 2024
Brainvire Infotech	Ahmedabad

- Designed feature-rich UIs using **React.js**, **Tailwind CSS**, and **SCSS**, consistently meeting client specifications and accessibility standards.
- Integrated **RESTful** and **GraphQL** APIs via **Axios** and **Redux Toolkit**, improving frontend data-fetching efficiency across multiple products.

PROJECTS

PieRush [[Live](#) · [Code](#)]: A full-stack pizza ordering app built with **React 19**, **Node.js**, **Express**, and **MySQL** with **Drizzle ORM**. Features JWT cookie auth, RBAC, Razorpay payment integration, and a pizza customizer with dynamic pricing. Self-hosted on **AWS EC2** (t3.micro free tier) as a VPS, with **PM2** managing the Node process for zero-downtime restarts, auto-restart on crash, and log handling — owned end-to-end from schema and API to UI, payments, and deployment.

NetAI Inc: Developed a network management application using **NextJs** with device topology visualization in **D3.js**, integrated REST APIs with **React Query**, managed state with **Zustand**, and built responsive UI with **Tailwind CSS and HTML**, collaborating effectively within a team.

CERTIFICATES

- **Java With Data Structures and Algorithms.** Complete basic to advance DSA with java programming under mentorship of Shradha Khapra, Course by Apna College
